25X1

During the period 18-22 July 1949 there took place in Berlin a conference at the CIA offices at which the business managers of all Objects of the Wismut A.G. were present. The purpose of the meeting was to discuss a complete reorganization of personnel-handling methods for the mining regions of the Erzgebirge, in order to prevent in the future the loss through desertion of trained and experienced employees. The plan is to quarter single workers in community camps with rigid daily schedules, and to place workers with dependents in specified restricted areas. It will be necessary, in order to obtain the added living space, to evacuate parts of the local population not occupied in mining or connected activities. When the new plan goes into effect, employees will not be allowed to leave their restricted areas during the period of their contracts. They will be required to take their leaves in FDGB community homes in Bad Reinerz (HL3).
